

“ASTALDI WITH ROME’S SCHOOLS”

PRESS NOTE

Rome, 21 February 2018 – The project named “Astaldi con le Scuole di Roma” (“Astaldi with Rome’s Schools”) has reached its conclusion with Astaldi’s final donation of repaired computers to Rome’s *Istituto Comprensivo Alberto Sordi*. In collaboration with [Impresa Sociale ReWare](#), the project has led to the creation of four computer science rooms, equipped with top-quality technology, in four schools in Rome. Astaldi’s mission to deliver quality in the works it builds is reflected in the social projects it commits to: repairing computers that would otherwise be thrown away, extending their life, and consequently halving their environmental impact.
